

Corporate Resume

Name: Matt Eddinger

Location: U.S. Coast Guard, Operations Systems Center

Education: Completed three years towards a BS Aviation Computer Science at Embry-Riddle Aeronautical University

Security Clearance: Secret

Keyword Summary: MCSE, MCSD, MCDBA, MCP, SQL Server 7.0, SQL Server 2000, Cold Fusion, ASP, ASP.NET, ODBC, ADO, IIS, Windows NT 4.0, Windows 2000, C#, Visual Basic, Visual Basic.NET, .NET Framework

Summary: I have over six years of technical experience working on a variety of platforms at various levels of complexity. Specializing in database design, implementation, and administration as well as data driven web applications, I have extensive experience with MS Access, SQL Server, and Oracle databases. My preferred web development tools include Cold Fusion, ASP, ASP.NET, and JavaScript. As a former network engineer for a 600 user environment, I am very adept at systems administration. My experience as a program manager at a national level has given me insight in to the requirements necessary to complete a project successfully. I have outstanding communication skills and work well individually or as a member of a team.

Work Experience:

2001-2004 OSS Group

I continued working for the USCG (just switched contractors). I have continued to enhance my web development skills and gained experience working with Lotus Domino. I am currently the team lead for the Coast Guard Maritime Information Exchange (CGMIX), an ASP.NET (C# and SQL Server 2000 backend) application.

2001 Fuentez Systems Concepts

I worked on several projects, which included designing, deploying, and maintaining web sites and OLAP 'cubes' containing USCG information. I used Cold Fusion, Active Server Pages, Cognos PowerPlay and Impromptu Web Reports. I also served as a SQL Server DBA and backup System Administrator.

2000 – 2001 Alphatech Corporation

As a member of the Network Management Team, I was part of a four-person team responsible for information systems support to the Financial Management and Planning Bureau's 600+ users. I served as the team's 'database and web specialist', and worked on a variety of databases (mostly Access and SQL Server).

1999 – 2000 Soza and Company, Ltd.

Supported the transition of an ASCII based flat file database to a SQL Server/web based (Cold Fusion) Management Information System. As the on-site ad-hoc reporting and information specialist I became very familiar with integrating SQL server with other software. I also assisted with the development and deployment of the web site in Cold Fusion. Especially with regard to web enabling 'Standard Reports' using SQL Server data.

1997-1999: Civil Air Patrol National Headquarters

Project Management, we did everything from initial budget forecasting to statistical analysis on feedback from participants. Daily job functions included use of MS Office products including full cycle development of multiple databases in MS Access and MS Project for task management. Served as liaison between MIS department and Cadet Programs Directorate. Also served as directorate webmaster.

1993-2001: US Army Reserve

I was trained as a Telecommunications Center Operator. I was the Distinguished (Top) Graduate of my Advanced Individual Training class.

Technical Training and Certifications:

Certifications:

Microsoft Certified Systems Engineer on Windows NT 4.0
Microsoft Certified Solution Developer on Visual Studio 6.0
Microsoft Certified Database Administrator on SQL Server 2000
Microsoft Certified Professional (10 total)

Technical Training:

Programming with Microsoft ADO.NET (MS-2389)
Developing XML Web Services Using Microsoft Visual ASP.NET (MS-2524)
Building XML-Enabled Applications Using Microsoft SQL Server 2000 (MS-2091)
XML: A Comprehensive Hands-On Introduction (Learning Tree Course 542)
DreamWeaver Advanced 4.0 (Macromedia)
Fast Track to Macromedia DreamWeaver 4.0 (Macromedia)
OLAP Modeling with PowerPlay 6.6 (Cognos)
Impromptu Administration 6.0 (Cognos)
Impromptu Advanced Report Writing 6.0 (Cognos)
Impromptu Report Building 6.0 (Cognos)
Fast Track to Cold Fusion (Allaire, now Macromedia)
